Sociotechnical Synthesis

Revolutionizing Food Delivery Services with Home Cooked Meals

The Impact of Social Norms and Government Regulation on the Vaping Epidemic

Thesis Prospectus

Sociotechnical Synthesis

My technical report and STS research paper had little to no overlap. My technical report was focused on developing an app for food delivery of home cooked meals, while my STS research dealt with analyzing the current state of the vaping epidemic. Therefore, no direct relationship exists between the two topics and a synthesis is impossible.
